

MIPI Bridge Board

Display has headed toward the FHD nowadays, especially mobile device. It induce customer's board to support MIPI (Mobile Industry Processor Interface). MIPI is favored because of its simple design, minimum circuit, low-power consumption, etc.

Evervision is a professional manufacturer of TFT LCM. To simplify our customer's need in circuit design and usage. We developed the MIPI bridge board for customer to optimize and integrate with their system board.

Features

- MIPI input resolution from 640x480 to 1920x1080
- Support 1~4 Data Lane
- Support 24/18 bit LVDS Interface output
- Top: -20~70 Degree C; Tst: -30~80 Degree C
