customer
satisfaction

Contents »

Based on the spirit of “Respect, Expertise & Sharing” and the company quality motto, APAC Opto will offer our customers the best product with the focus on growing the customer relationship to create a win-win outcome. APAC Opto pledges to maintain close association with research and production partners so as to achieve the company goal of “Innovation, Quality & Customer Satisfaction”.

Founded in July 1998, APAC Opto Electronics Inc. is the leading manufacturer of high performance fiber optical transmission components for Local Area Networks(LANs), Wide Area Networks(WANs), Storage Area Networks(SANs), Metropolitan Area Networks(MANs) and Access Networks(ANs) in Taiwan.

The company supplies a broad range of optical communication components including O/E transceivers and Ethernet Products globally to manufacturers of communications for internet service providers and telecommunications & datacommunications operating companies.

APAC Opto Electronics Inc. was accredited with ISO 9001 in 1999 and ISO 14001 status in 2009, bearing proof of company commitment in quality and environment for continually systematic and sustainable improvement.
